Everything Cinema... Driven by Global Connections

Engage with friends and colleagues, old and new, this September at **CineLATAM**. Powerhouse programs offer valuable insight from top executives on the latest industry trends and concerns; while our Showcase experience offers delegates a glance at the latest and best technologies, entertainment, comforts, and conveniences to make their theatres must-attend destinations in the Latin American region.

CineLATAM features a range of exclusive product presentations and screenings from Major Hollywood studios and potentially Regional Independants to help you make important programming decisions.

CineLATAM will bring industry executives from exhibition and distribution along with vendors that drive business in the Latin American region together to information share, network and close the gap working directly with the decision makers.

CineLATAM is committed to infusing resources to expand the theatrical experience in Latin America and its continued growth within this global market.
