CineAsia Looks Forward to an Inaugural Year in Seoul, Korea...

After 30 years as the most successful convention for theatrical exhibition in the Asia-Pacific region, CineAsia continues to expand to satisfy the demand for more exciting studio presentations, more variety on the Trade Show floor, and more valuable seminars and programming.

What does the cinema landscape look like today? Is the future for the industry growth, status quo, or decline? Strategic change is necessary from both exhibitors and distributors alike. CineAsia looks forward to focusing on what that means, how to achieve it, and how Exhibition and Distribution can collaborate to make this great industry continue moving forward!

Join your industry colleagues from around the globe to network and reconnect at the largest cinema convention in Asia.
